PROFILE

Versatile and innovative Full-Stack Developer with expertise in various languages and frameworks. Committed to delivering high-quality, scalable solutions through seamless integration and collaboration. Skilled in crafting visually appealing and high-performing applications, with 2+ years of experience in web development, with a proven track record of delivering high-quality projects on time

PROJECTS

E-COMMERCE PLATFORM FOR PREMIUM APPS/SERVICES (FULL-STACK)

Duration: 1 Month

- Developed a full-stack e-commerce site for purchasing premium apps/services using HTML, CSS, JavaScript, and Firebase.
- Admin panel for managing items (upload, edit details, set prices).
- Firebase and email integration for order processing and payment verification. [Site is under development](#)

COLD SMS SENDER WITH ADMIN PANEL (FULL-STACK)

Duration: 1 Month

- Developed a web-based Bulk SMS Sender with an admin panel for credit management, built with HTML, CSS, JavaScript, Bootstrap PHP, and API integration.
- Integrated real-time Firebase authentication for secure and seamless user access.
- Decreased SMS delivery errors by 15% through improved API integration and robust error-handling. [Site is under development](#)

CONSULTANCY WEBSITE (FRONT-END)

Duration: 15 Days

- Built a responsive, user-friendly website for RR Consortium using HTML, CSS, and JavaScript, ensuring compatibility across all devices.
- Showcased the consultancy's expertise and services, including land surveys, engineering soil investigations, plan and design, testing services, and quantity calculations, with a focus on professionalism and clarity.
- Boosted traffic by 25% with SEO optimization, ensuring better visibility and engagement for the consultancy's services.
